PLANT NAME	MOISTURE	EXPOSURE	HEIGHT	PLANT CHARACTERISTICS
DOUGLAS FIR <i>(PSEUDOTSUGA MENZIESII)</i>			120'	Young trees are fast growing, pyramidal, and densely branched. Excellent tree for wildlife gardens.
Douglas Maple <i>(Acer glabrum)</i>			3-30'	Leaves turn yellow to orange in Fall. Similar to vine maple, also suited in rocky, drier areas, along shoreline and forest edges.
SHORE PINE <i>(PINUS CONTORTA V CONTORTA)</i>			45'	Fast growing pine, compact and rounded, more open with age. Does well in rock gardens or containers.
Baldhip Rose <i>(Rosa gymnocarpa)</i>			5'	Slender stemmed, rhizomatous shrub. Small fragrant flowers bloom late spring to mid-summer. Nectar plant for butterflies, rosehips provide food for birds.
Blue Elderberry <i>(Sambucus nigra caerulea)</i>			10-30'	Deciduous shrub/small tree, multi-stemmed. Grows up to 18' across. Tiny, creamy flowers in late spring to mid-summer. Edible, dark blue berries. Fairly drought tolerant. Good for wildlife and butterflies.
Hooker Willow <i>(Salix hookeriana)</i>			18'	Large, branching shrub or small tree. Woolly catkins. Tolerates flooding, good for erosion control and wet places in hedgerows and wildlife gardens.
Evergreen Huckleberry <i>(Vaccinium ovatum)</i>			4-10'	Bushy evergreen shrub with small shiny green leaves and pinkish white flowers. Does well in shade and provides food for wildlife. Blooms April to July.
Indian Plum <i>(Oemleria cerasiformis)</i>			15'	Deciduous shrub/small tree. Greenish-white flowers bloom in drooping racemes in late winter to mid-spring. Flowers attract hummingbirds, red-orange fruits are eaten by birds.
Kinnikinnick <i>(Arctostaphylos uva -ursi)</i>			GROUNDCOVER	Prostrate, evergreen shrub forms mats up to 15' across. Smooth, reddish bark, leathery leaves. Pink, flowers bloom mid-spring to early summer. Bright red fruits.
Mountain Balm <i>(Ceanothus veluntinus)</i>			10'	Spreading, evergreen shrub up to 6' wide. Resinous, fragrant foliage. Tiny, fragrant white flowers bloom in dense panicles in early to late summer.
Mountain Boxwood <i>(Paxistima myrsinites)</i>			3'	Tolerates dry shade under big trees. Evergreen shrub with glossy foliage. Tiny maroon flowers bloom mid-spring to mid-summer.
Oval Leaved Viburnum <i>(Viburnum ellipticum)</i>			10'	Deciduous shrub. Leaves turn red in fall. Whitish flowers bloom later spring to early summer. Elliptical red fruits in late summer and fall.
Quaking Aspen <i>(Populus tremuloides)</i>			UP TO 60'	Graceful, deciduous tree, readily reproduces from suckers. Bark is smooth and greenish-white. Rounded-ovate to heart-shaped leaves characteristically flutter in the wind.
Red Flowering Currant <i>(Ribes sanguineum)</i>			3-10'	Upright, multi-stemmed shrub with showy clusters of deep pink flowers. Very attractive to hummingbirds and other pollinators. Blooms early; Feb- March.
Red Osier Dogwood <i>(Cornus stolonifera)</i>			15-20'	Spreading, thicket-forming shrub with white flower clusters. Bright red stems provide winter color. Important species for wildlife. Flowers April-June.
Salal <i>(Gaultheria shallon)</i>			3-7'	Creeping to erect shrub with hairy branching stems and dark leathery leaves. White bell-shaped flowers.
Twinberry <i>(Lonicera involucrata)</i>			6-9'	Spreading shrub with yellow paired flowers; shiny black berries. Attractive to hummingbirds and other pollinators. Blooms April-July.
Licorice Fern <i>(Polypodium glycyrrhiza)</i>			UP TO 28'	Perennial fern unfurls in fall and remains green throughout winter. Creeping rhizomes taste like licorice. Welcome splash of green in the winter landscape.
Pacific Bleeding Heart <i>(Dicentra formosa)</i>			1'	Herbaceous perennial grows from slender, spreading rhizomes. Finely divided, fern-like leaves. Flowers purplish-pink with rounded, heart-shaped spurs. Blooms early spring to mid-summer.
Douglas Aster <i>(Aster subspicatus)</i>			3'	Deciduous perennial grows from creeping rhizomes. Leafy flowering shoots height 3'. Flowers are blue or violet. Blooms mid-summer to mid-fall. Attracts butterflies and other insects.
